Arab Vision news update – October 2015

- Courageous Syrian Christian workers killed - [Pray for the Arab World](#)
- Visit our website and give your opinion! - [Like our Facebook page](#)
- God's kingdom visible in you - [Kingdom Person](#)
- Hope for tomorrow - [stop domestic violence against women!](#)
- Looking for answers - [news from our follow up team](#)

Dear friends,

Almost all the news on TV nowadays is about the refugee problem – and it is often about whether countries can receive the refugees, and how many, and what the consequences are. What we often do not hear are the stories about incredibly courageous Christians who stayed in Syria to help their neighbours – and are killed for their faith. Read [here](#) about what happened to 11 Syrian Christian workers who refused to give up their faith in Jesus Christ and were brutally

killed.

Would you please continue to pray for the Arab World in this time of upheaval and violence? We enclosed a special prayer card (postcard size) with our September newsletter. In case you haven't received the card and you would be interested in having one or more copies, let us know and we'll send it to you.

Visit our website and give your opinion – like our Facebook page!

Since some time now Arab Vision has a renewed website. Have a look at www.arabvision.org and let us know what you think. You can mail us but you can also send a personal message via our [Facebook page](#). As friend of Arab Vision you can really help us by liking our page.

God's kingdom visible in you - Kingdom person

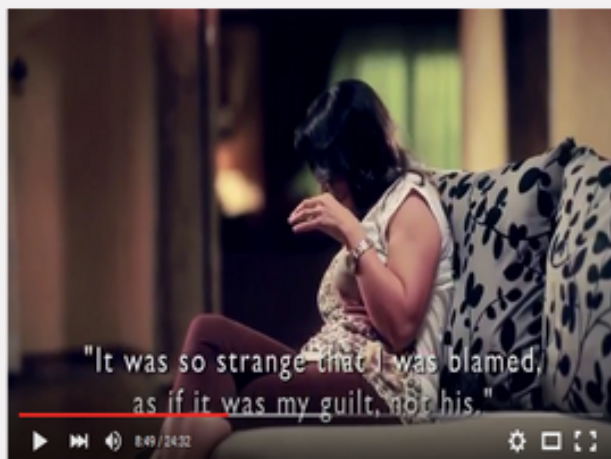

Kingdom Person is a series of TV programs which equips (young) Christians to align their thinking and their lives with the Kingdom principles of the Lord Jesus in (family) relationships, work and society.

In this time of pressure and persecution of Christians in the Middle East a generation is needed which will amaze the community and make people think about the power of the Christian faith. Sharing God's love, grace and forgiveness is much needed in a world of violence and hatred!

The first group of viewers of this series was the production team itself and even during the production process it made them think – even before the series was broadcast on TV people were touched in their minds and in their hearts. Arab Vision would like to produce a second series of Kingdom Person; we would need €15000 (or US\$ 17.000) and prayer! It would be great if you would be willing to [contribute](#). Would you please consider that? .

Hope for tomorrow –**stop (domestic) violence against women!**

Our series of programs about (domestic) violence against women and girls is now broadcast on various satellite channels. (Miracle channel and Sat-7) Our follow-up team receives quite a bit of feedback, not only from women.

Mahmoud from Egypt is repeatedly dreaming that he's meeting with Jesus Christ. The repetition of these dreams is starting to convince him

that Jesus is real and that Christianity is true. God is moving in his life and he has requested a copy of the Bible to read.

If you would like to watch a Hope for Tomorrow episode with English subtitles, you can do that [here](#).

Looking for answers – **news from our follow up team**

Marwa is a young Muslim lady who became suicidal because of some problems in her life. She has a Christian friend who suggested that she pray in the name of Jesus. Marwa was too afraid to do this and her problems worsened. Her Christian friend continued to encourage her to turn to Jesus and suggested that she read the Bible from the internet and learn about the Christian faith through Christian satellite TV channels. She began to do this and contacted us using the follow-up information on one of our programmes. Our team has been helping her to understand the Gospel and is now discussing baptism with her. Read more about our follow-up team and the projects we are planning in our [September newsletter](#).

May the Lord bless you richly,

Umm Al-Farieq
International Director Arab Vision ,

P.S Several of you asked me how I am doing personally since I am being treated for breast-cancer. During the past six months I have had chemo- and immunotherapy. The chemotherapy is finished and at the end of this month I will have an operation, which will be followed by radiotherapy. All being well, the whole treatment will last till April next year. These past months were quite heavy, but it was a real blessing to know that so many people were praying for me. That was one of the reasons that I had the strength to continue my work for Arab Vision, with the help of colleagues. Would you pray for further healing, courage to keep going and energy for family and work? Thank you very much indeed!
